

PANKAJ RANA

Senior React Native Developer | AI-Enabled Full Stack Engineer

+91-8445611760 | ranap8445@gmail.com | Greater Noida, India

Portfolio: pankajrana-portfolio-4ure1lgxr-pankaj-ranas-projects.vercel.app | LinkedIn: linkedin.com/in/pankaj-rana-b10941153

PROFESSIONAL SUMMARY

Senior React Native Developer with 7+ years of experience designing and shipping scalable cross-platform mobile applications for Android and iOS using React Native, TypeScript, Redux, and Expo. Delivered production apps serving millions of users, improving app performance by 50% and reducing crash rates via Firebase Crashlytics. Expert in REST APIs, GraphQL, WebSockets, BLE, CI/CD pipelines, and Agentic AI/LLM solutions including OpenAI APIs, LangChain, and MCP. Proven Agile practitioner with end-to-end App Store and Google Play Store deployment experience.

TECHNICAL SKILLS

Mobile Development: React Native, Expo, TypeScript, JavaScript, Android (Java/Kotlin), iOS, Deep Linking, App Security, Push Notifications

Frontend: React.js, React 19, Next.js 16, Redux, Zustand, Context API, React Hooks, Responsive UI

Backend & Databases: Node.js, Express.js, NestJS, Python, MongoDB, Firebase, REST APIs, GraphQL

AI & LLM: Agentic AI, OpenAI APIs, LangChain, LangGraph, LLM Fine-tuning, Prompt Engineering, MCP

DevOps & QA: Git, GitHub, CI/CD, Docker (basics), AWS (basics), Jest, Maestro, App Store Deployment, Google Play Deployment

Integrations: BLE (Bluetooth Low Energy), WebSockets, Socket.IO, JWT, OAuth 2.0, Social Login, OneSignal, Razorpay, Google Maps API

PROFESSIONAL EXPERIENCE

TELUS DIGITAL

Application Developer - Module Lead | October 2025 - Present

- Led a 6+ developer React Native team; improved system performance by 25% and sprint velocity by 20% through Agile/Scrum practices.
- Defined technical requirements with product stakeholders; delivered all releases on schedule with zero critical production failures.
- Mentored junior developers on TypeScript, Redux architecture, CI/CD, and mobile deployment best practices.

PROGRAMMING.COM

Senior React Native Developer | May 2024 - October 2025

- Built production React Native apps (TypeScript, Redux) for Android & iOS; boosted user engagement by 35% and BLE real-time stability by 40%.
- Integrated Social Login (Google/Apple/Facebook), OneSignal push notifications, and Razorpay - reducing integration time by 30%.
- Implemented deep linking, JWT authentication, and OAuth 2.0 flows; maintained 99%+ crash-free sessions across platforms.

ADGLOBAL360

React Native Developer | August 2023 - May 2024

- Delivered cross-platform React Native apps with Redux/Context API; reduced data-flow bugs by 30% across 2M+ active devices.
- Integrated REST APIs and third-party SDKs with robust error handling; collaborated with UI/UX teams for pixel-perfect implementations.

ETELLIGENS TECHNOLOGY

Mobile Application Developer | January 2021 - August 2023

- Architected 5+ React Native apps; reduced crash rate by 25% via Firebase Crashlytics monitoring and proactive debugging.
- Optimised app performance by 40% using lazy loading, memoisation, and efficient Redux state management.
- Integrated WebSockets, Firebase Cloud Messaging, and real-time data sync features across multiple production apps.

MOBISOFTSEO INDIA TECH LLP

Junior Android Developer | September 2019 - January 2021

- Built Android features in Java/Kotlin; resolved production issues and enforced coding best practices across the team.
- Integrated Google Maps API and third-party SDKs, improving location accuracy and overall app reliability.

KEY PROJECTS

Zupee Ludo

Technologies: React Native, TypeScript, Firebase, Socket.IO, UPI Payment Gateway

Live: [Google Play](#) | [App Store](#)

- Built the mobile client for Zupee's skill-based real-time multiplayer Ludo platform (5 Crore+ downloads on Android & iOS); Socket.IO maintained sub-20ms game-state sync for 10,000+ concurrent players across 1v1 and 4-player match formats.
- Implemented UPI payment gateway for secure real-money competitive matches with leaderboard, tournaments, and instant deposit/withdrawal flows.

Tez Rummy

Technologies: React Native, WebSockets, Redux, Firebase, TypeScript

Live: [Google Play](#) | [App Store](#)

- Developed the cross-platform mobile app for TezRummy - an RNG-certified, skill-based Indian Rummy platform (lakhs of users) with Points, Pool, and Deals Rummy formats, real-player matchmaking, and 24/7 gameplay.

- Engineered WebSocket real-time card synchronisation and optimised Redux store architecture, reducing game-state lag by 35% and ensuring seamless 2-6 player concurrent gameplay.

Hobbytwin

Technologies: React Native, OpenAI APIs, LangChain, Firebase, TypeScript

Live: [Google Play](#) | [App Store](#)

- Built the React Native app for Hobbytwin - an AI-powered social network that matches users with nearby people sharing the same hobbies and skills; integrated OpenAI APIs for intelligent interest matching and personalised recommendations, boosting match accuracy by 40%.
- Implemented Firebase Firestore for real-time profile sync, Firebase Cloud Messaging for push notifications, in-app DM chat, group creation, and session scheduling with secure escrow-based payment for hobby lessons.

Capri Loans

Technologies: React Native, TypeScript, REST APIs, JWT Authentication, Redux

Live: [Google Play](#) | [App Store](#)

- Developed the consumer mobile app for Capri Global Capital Limited (BSE/NSE-listed NBFC) enabling 1.4M+ users to manage Gold, Home, and MSME loans - featuring 24/7 real-time loan tracking, EMI payments via UPI/Debit/Net Banking, document access, and application status updates.
- Implemented JWT authentication, VAPT-certified data security, Redux state management, and multiple payment gateway integrations, achieving 99.9% API reliability across all loan processing flows.

Enviro.H

Technologies: React Native, BLE (Bluetooth Low Energy), Google Maps API, TypeScript

Live: [Google Play](#)

- Built a React Native IoT companion app for an environmental health monitoring hardware device - BLE integration streams real-time air quality, temperature, and humidity sensor data directly from the device to the mobile interface.
- Integrated Google Maps API for geo-tagged readings and live location overlay, enabling users to visualise environmental health data against their current location and movement history.

AGL HRM

Technologies: React Native, TypeScript, REST APIs, Redux, Firebase

Live: [Google Play](#)

- Developed a comprehensive HR management app enabling employees to manage attendance, leaves, payroll, and tasks through a seamless cross-platform mobile interface.
- Integrated REST APIs with Redux state management and Firebase push notifications, ensuring real-time HR data sync across Android and iOS.

Mint360 LMS

Technologies: React Native, TypeScript, REST APIs, Redux

Live: [Google Play](#)

- Built a Learning Management System mobile app for Suzuki sales teams featuring course modules, assessments, progress tracking, and certification workflows.
- Implemented role-based access control, offline content support, and real-time performance dashboards for sales managers.

EDUCATION

Master of Computer Applications (MCA) | A.K.T.U. University, Lucknow | 2019 | GPA: 7.0/10

Bachelor of Computer Applications (BCA) | Ch. Charan Singh University (CCSU), Meerut | 2017

CERTIFICATIONS

- React JS Masterclass: Zero To Job Ready With 10 Projects | Udemy | April 2026 | [View Certificate](#)
- The Complete React 19 Developer Course (Incl. Next.js 16) | Udemy | April 2026 | [View Certificate](#)
- Mastering TypeScript - 2026 Edition | Udemy | April 2026 | [View Certificate](#)
